Most afternoons she is walking through some local park! We appreciate her dedication to the children and FCCNS, always returning from lunch early!! She offers so much to our program, has a smile and kind words. We are grateful that she came to us and offers her expertise and skills. Thank you, Miss Laura!

American Sign Language – Signs of the Month

We will have a new sign each month, this month we have ONE (1). Since we have construction underway, we thought it would be a good sign to learn!

Building or Construction – Place your flat, dominant hand on top of your flat, non-dominant one - with both palms facing down - and begin a repetitive upward movement in which one hand supersedes the other until both hands are right in front of your nose. The movement conveys the act of building a tower.
